## SUBCOMMITTEE BUDGET ISSUES

The Economic Development Appropriations Subcommittee may wish to examine the following issues:

- ▶ **Strategic Investment Fund and the Value-Added Agricultural Products and Processes Financial Assistance Program (VAAPFAP)** – The two Programs did not receive an appropriation for FY 2005 or FY 2006. The Strategic Investment Fund is comprised of the Community and Economic Betterment Account (CEBA), the Targeted Small Business Financial Assistance Program, the Entrepreneurs with Disabilities Program, and the Entrepreneurial Ventures Assistance Program. Remaining sources of revenue for the Strategic Investment Fund and VAAPFAP are loan repayments and interest. The Subcommittee may wish to examine the programs and activities funded through the Strategic Investment Fund and VAAPFAP and the future of those programs and activities.
- ▶ **Battelle Reports** – An article from Time Magazine entitled, “Visions of the 21st Century – Our Work, Our World,” argues that the country has moved from the industrial economy, into the information economy, and is now moving into a new economy called the bioeconomy. The Department of Economic Development (DED) paid the Battelle Memorial Institute \$466,000 to conduct a study to determine Iowa’s core bioscience competencies and to produce a formal strategy and roadmap to drive bioscience growth in the State. The report provides several recommendations to strengthen Iowa’s bioscience industry. In total, the recommendations call for an investment of approximately \$301.5 million over a 10-year period. The report recommends the State issue bonds for \$169.7 million and provide General Fund support in the amount of \$131.8 million over 10 years. In doing so, according to Battelle’s projections, the State will leverage \$1.5 billion in federal, private, and other funding sources. Battelle projects that the total funding will result in an increase of 16,000 jobs over 10 years, with total sales in year 10 of approximately \$1.4 billion. The DED is requesting a \$16.4 million appropriation from the General Fund for FY 2007 for the Bioscience Alliance. The Alliance has been formed to steer the development of the emerging biosciences industry. The Alliance has representation from the Iowa Capital Investment Corporation (ICIC), the Iowa Capital Investment Board (ICIB), the University of Northern Iowa, Iowa State University, the University of Iowa, private colleges and universities, community colleges, commodity groups, farm organizations, private and investor owned utilities, business associations, local economic development professionals, venture capital firms, community colleges, and the Board of Regents. ***The Governor is recommending \$2.3 million from the General Fund and \$2.8 million from the Federal Economic Stimulus and Jobs Fund for the Bioscience Alliance, \$10.0 million from the Rebuild Iowa Infrastructure Fund (RIIF) and \$10.0 million from the Endowment for Iowa’s Health Fund to the Board of Regents to support the biosciences and the commercialization of research, and \$250,000 from the General Fund to the Department of Economic Development for the Lean Manufacturing Institute. The Governor’s total recommendations for Battelle recommendations are \$25.4 million.***
- ▶ **Community Attraction and Tourism (CAT) Program** – In the past, the CAT Program received an annual appropriation of \$12.5 million from the Restricted Capital Fund of the Tobacco Settlement Trust Fund for infrastructure projects to enhance tourism. The

last Restricted Capital Fund appropriation was for FY 2004. Senate File 2298 (FY 2005 Omnibus Appropriations Act) extended the CAT Program through FY 2010. For FY 2005 through FY 2010, the CAT Program will receive an annual appropriation of \$12.0 million. For FY 2005, the funding source was the Rebuild Iowa Infrastructure Fund (RIIF). For FY 2006 through FY 2010, the funding sources will be RIIF (\$5.0 million) and a General Fund allocation from franchise tax revenue (\$7.0 million). The Board has made awards totaling \$66.0 million. ***The Governor is recommending the full \$12.0 million from the RIIF.***

- ▶ **Administrative Contribution Surcharge** – In prior years, 55 rural and satellite Workforce Development field offices were funded by the Administrative Contribution Surcharge that was paid by Iowa employers, based upon unemployment compensation rates. The surcharge, originally scheduled to sunset on July 1, 2003, was extended to July 1, 2006, through the enactment of HF 692 (Taxation Changes, Grow Iowa Values and Regulatory Reform Act). Since HF 692 was invalidated by the Iowa Supreme Court, the original sunset date of July 1, 2003, became law. Senate File 2311 (Economic Stimulus Appropriations Act) provided a General Fund appropriation of \$6.5 million for FY 2005 and FY 2006, and a General Fund appropriation of \$3.3 million for FY 2007. As specified in statute, Administrative Contribution Surcharge collections were extended through the end of calendar year 2003. Surcharges collected after December 31, 2003, were set aside in escrow and refunded to businesses. If the appropriation is reduced by 50.0% for FY 2007, the Department intends to request an appropriation from the interest earnings on the Unemployment Compensation Reserve Fund.

The Department received a General Fund appropriation of \$6.9 million for FY 2006 that includes salary adjustment distribution of \$332,000. The Department's FY 2007 request is to continue the \$6.9 million appropriation from the General Fund. The Department estimates that federal support will decrease by approximately \$232,000 in FY 2007 compared to FY 2006. ***The Governor is recommending a \$6.9 million General Fund Appropriation for FY 2007.***

This fund provides the only source of below-market interest rate loans to develop and expand facilities and infrastructure for adult day care services, respite services and congregate meal sites which assists older low-income Iowan's to remain in their homes. Without the loan fund, communities and health care providers must obtain loans through traditional lenders and these types of services do not produce adequate income to pay market rate mortgages. 0001	State Income Tax Exempt BondsExempting IFA single family and multifamily bonds from State income tax will assist IFA in providing the lowest possible interest rates to first-time home owners of low and moderate income in the State, as well as to owners of affordable multifamily developments. The State income tax exemption will encourage lowans to invest in IFA bonds, which will broaden the investor base and reduce borrowing costs. The market of potential investors in housing bonds has dramatically shrunk due to Fannie Mae's exit, and any steps to add potential investors will reduce IFA's borrowing costs. This is not a direct appropriation as the cost would be a loss of state income tax revenues from not taxing the interest paid to investors.	Appropriation	165,000	0
